mk Inventory Wand

Inventory – all in one

Benefits for your Library:

- Ergonomically designed all in one RFID inventory wand system
- Bright color touchscreen
- Easy to use / light weight
- Turn the antenna so that it will have best possible contact towards the books
- Up to 40 Tags identified per second
- Includes software for staff or other computers

Functions:

- Scan items on the shelve and create a transfer list.
- Search mode: a list of items will be exported from pc to inventory wand
- Find misplaced items: a list of items that belongs on that shelve will be uploaded. Inventory wand notifies misplaced items.
