

mk LibDispenser®

Your 24/7 Library!

Benefits for your Patron:

- Convenient library extension in public high access areas such as train stations, airports, hospitals, malls, universities, etc.
- Uses familiar Online Catalog (OPAC) data from your ILS.
- Handles all types of library materials (books, CDs, DVDs, magazines, games).
- Checks items out and in. Returned items are immediately available for the next patron.
- Item identification and security via RFID.
- Library card identification via barcode, RFID (i.e. Mifare), magnetic strips.
- Simple and intuitive touch screen user-interface.
- Optional Fine and Fee Payment via debit/credit cards.
- The patron takes only the item, just like a normal library – No extra boxes or cases that need to be returned to the same location.
- Can be configured to accept any library return item the same as other branches.

Benefits for your Library:

- Provide library services to areas where a branch is reducing hours or adds additional capacity for space strapped branch.
- Affordable service alternative in neighborhoods that can't support a physical building.
- Base model maximum capacity of 796 dynamic horizontal storage positions. Actual capacity depends on the thickness per item.
- Expansion modules with 378 dynamic horizontal storage positions available in each unit.
- Smaller configuration available.
- Web-based monitoring and administrative software (mk LibManager).

Available Options:

- Free-standing indoor or outdoor version.
- Indoor version with outdoor (through wall) retrieval station (check-in/check-out station).
- Separate browsing station(s), located beside the retrieval station or standalone browsing kiosk.
- Audio support.
